SEARCH NOTES (INCLUDING SEARCH STRATEGY)		
	DATE	EXMR
Paul Rodriguez originally helped me run my search.		PSS
Brad Edelman indicated that he's unaware of anything that reads on claim 1. He told me to try searching 370/229-240.		PSS
Seema Rao (SPE in 2666) told me that she's never seen anything that uses the ratio in claim 1 for detection on a network.		PSS
Seem Rao told me to search 370/254-258 before possibly allowing the case.		PSS
Because this was the first case I ever worked on, I ran a new key word search and came up w/ nothing substantial.		PSS
